As young girls, we dream big dreams of finding our Prince Charming and living the successfully ever after fairy tale – but then life happens. I know, because it happened to me. I found myself waking up at a point in life wishing it was a bad dream. I knew I wanted a different ending to my story, but I was wallowing in my “bless her heart” moments and trying to drown the hurt with gallons of sweet tea. Then I sucked it up, realized I controlled my own future and started making my own edits. Just as an editor uses proofreader marks to make stories more readable and understandable, we can use those same edits in life to add more clarity, success and joy to our stories. When In Doubt, Delete It! shows you how to change your life with five proofreader marks – delete, insert, move, begin, and stet. Learn how to:— delete things holding you back.— insert qualities and ideas that help you grow.— move toward what brings you happiness.— begin adding new experiences to stay out of a rut.— remain true to yourself. If you’re ready to start a new chapter, Author Chellie Phillips created 36 Life Edits using her 20 plus years of experience in team building, mentoring and corporate public relations and marketing to show you how to take control of your choices and beliefs, so you’ll be ready to walk through the door of opportunity when it opens for you.
