Over the years, Susan honed her skills, working closely with renowned mediums and spiritual teachers. Through her unwavering dedication, she developed techniques to communicate with animals that have passed away, tapping into the spiritual energy that transcends physical boundaries.

Communicating Beyond Death

According to Susan Deren, animals continue to live in the spirit realm after they pass away. They retain their personalities, memories, and individuality. They can also communicate with their human counterparts, albeit in a different form.

Through her sessions, Susan facilitates conversations between pet owners and their departed animals. She acts as a channel, conveying messages from the spirit world, providing solace, closure, and a sense of peace. Many clients have reported remarkable validation and accurate information that only they and their pets would know.

Healing and Closure

Losing a beloved animal companion can be devastating. The grief can linger for years, leaving pet owners feeling empty and searching for closure. Susan Deren's work offers healing on multiple levels.

By connecting with animals in the afterlife, she helps owners understand that their pets are still present, watching over them, and sending them unconditional love. Clients often describe feelings of overwhelming peace, knowing their pets are safe and at peace themselves.

Moreover, Susan assists in resolving any unresolved issues or guilt that may exist between pet owners and their departed animals. These sessions can provide a path to forgiveness and closure, allowing both parties to move forward.

The Controversy and Skepticism

As with any field involving mediumship or paranormal activities, there are skeptics who question Susan Deren's abilities. Some argue that her claims are nothing but vague statements and cold reading techniques. However, many of her clients vehemently defend her, crediting her for helping them find peace during their darkest moments.

When it comes to matters beyond scientific validation, it ultimately boils down to personal beliefs and experiences. If individuals experience comfort and closure through Susan's sessions, then who are we to dismiss the power of such connections?

Our Connection to Animals

Humans have shared a deep bond with animals throughout our existence. They have been our companions, healers, and teachers. Their unconditional love and presence have touched countless lives.

It is therefore not surprising that many seek answers about the afterlife of animals and the possibility of reconnecting with them. Susan Deren's work offers a glimmer of hope to those who have lost their furry friends, reminding them that love transcends death.

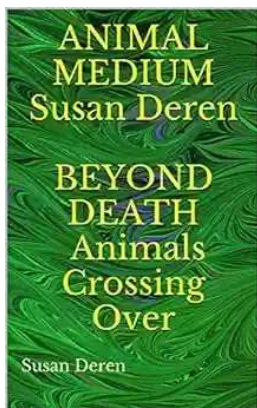

A Journey to the Other Side

Susan Deren's journey as an animal medium has been both profound and transformative. Through her unique abilities, she has impacted the lives of

numerous individuals, providing insights, healing, and closure.

Her work continues to be met with skepticism, but for those who have witnessed the extraordinary connections she facilitates, doubts dissipate, and hope is restored.

Whether you believe in the afterlife or not, one thing remains certain: the love we share with our animals is eternal. And for those seeking solace and connection beyond death, Susan Deren offers a path to reunite with our beloved companions in the realm of the spirit.

An uplifting book that shares the Animal Medium Readings of others who have also lost a beloved pet. It will make you smile and strengthen your faith that our animals really are on the other side!

After 25 years of providing Animal Medium Readings to clients, I wanted a book that would truly help pet owners deal with their animal's passing. I thought the

best way to illustrate this was through my readings. This book is a journey through the experience of clients and their animals.

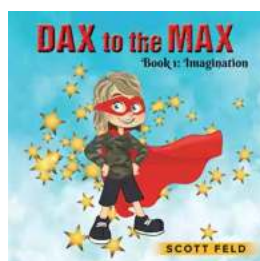

Every pet in these readings wants to point their humans to the "in-betweens," not the end of their life. They celebrate the times with their humans, the bond between them. This connection between animal and human remains even in death.

After many years of connecting to animals who have crossed over, one thing is certain. Animals are on the other side and they are not alone.
