Honestly, have you ever began researching a trip for Europe and wanted to bang your head into a wall?

There is so much information it's overwhelming. Most of the travel books out there make you want to put your head in the sand and hand all of your money over to a tour company and choke down the bill.

The books are confusing. There's way too much covered. And so many little things the average person—and I'm including myself—can get overwhelmed with...it paralyzes people.

This is why I think tour companies are so successful—because everything makes it too complicated.

So—I'm giving you uncomplicated.

Non comprehensive.

Basics.

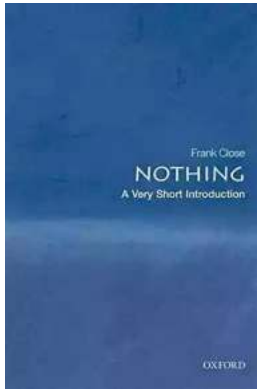

After all—you can't be an Olympian without starting with fundamentals—right?

So, if you want to know every website and every complicated detail about London, Paris, Rome—this is NOT the book for you.

If, however, you want the cliff notes version...you want enough to pass the test

and know the basics...this is for you.

This is a short guide based on my first trip to Europe. Enjoy!
