In 1869, Concordia, Kansas, was declared the county seat of what would become Cloud County. At first, the town existed only on paper as a project being pushed by James M. Hagaman and a small group of partners. Once development started, Concordia rapidly grew to become a center of commerce south of the Republican River that eventually attracted four railroad lines. It became a town of landmarks, including several famous hotels, two opera houses, Nazareth Convent, and a thriving downtown area. Characters in the story of Concordia include French Canadian immigrants, nuns, pilots, quarreling newspaper editors, German prisoners of war, and politician Frank Carlson. Readers can enjoy visiting the community's past in the pages of Images of America: Concordia.
