Do you want to raise children who love to learn? Maybe you are simply looking for a way to unplug your child from the TV or video games? Just by reading this book, you will be taking a proactive step in providing your child with meaningful experiences that will result in growth and plenty of family fun!

The “project approach” has long been a tremendous tool for educators working with young children. In this book, three experienced teachers show parents, grandparents, and other caregivers how to do meaningful and exciting projects in their home and community. Featuring many photos of children doing project work, this volume:

- Thoroughly explains the benefits to both you and your child of doing projects together.
- Helps you transform your home into a place to learn, including guidance for collecting and storing materials, making time for projects, and documenting

your child's work.

- Presents the stories of seven projects that were done by children with the support of a parent or grandparent: Maude the Dog Project, Slime Project, Caterpillar Project, Race Car Project, Mexican Bakery Project, Horse Project, and Bus Project.
- Shows appropriate expectations and how to coach and build your child's skills in reading and writing, mathematical development, scientific thinking, and more.
- Provides ideas for adapting the project approach for use in family daycare centers, home schooling, and gifted education.

“This is a wonderful and primer to the world of the Project Approach. All of the chapters are packed with information and the things that we parents need to know. The examples of projects are absolutely golden.”

—Kristine Konrad, home-schooling parent

“As the father of a curious three-year-old, I found the concepts and ideas in this book to be terrific. It will appeal to anyone who has a child in their life and is open to the idea of spending time learning together.”

—Thomas Goodheart, parent
