

The Ultimate Guide to Body Swap Fiction Gender Transformation Journal

I just came back home from work and put down my purse. As I made it further into the house my husband came from the living room and smiled seeing me. "My lovely wife, the most beautiful woman in the world is finally home!" He said putting his hands on my hips. Not that long ago that line wouldn't work on me and I would be rather irritated but now I couldn't help but smile. He always knew how to make a compliment to make me feel good. I came a long way in a short period of time to reach this point where I'm happy with my life. You see not so long ago I was just a teenage boy.

It happened one day. When I was chilling at home listening to some music, I got a text message from my girlfriend Linda. Linda had something important to say and she wanted me to come over. A few minutes later I entered her house but Linda wasn't there. Instead I found her mom, Mrs. Philips waiting for me with something in her hand. Something that looked like a tv remote. When I asked her what's going on she pointed the remote at me and then suddenly I found myself standing at the opposite side of the room. It took me a few seconds to realize we didn't only switch places but we actually switched bodies. Mr. Philips who saw the whole thing tried to stop her but Mrs. Philips was faster. I was still in shock and I didn't even had the chance to react when she took the remote from my hand, dropped it on the floor and stomped on it giving us a clear message there is no going back.

That day I became Mrs. Sarah Philips. It was weird going from a sixteen years old boy into a thirty eight years old woman. Most guys would probably fall into depression but not me. I decided it won't break me down and I will take over her responsibilities without any complains. Sure I wasn't very good at first but the days spend in this body had taught me a lot and I was slowly getting a grip on all the feminine stuff and motherly duties and I think I was actually making quite the good mom. Mr. Philips, or as I call him now Mike was very impressed how quickly I've adapted and how much I have grown up since the swap. Soon he started to see me not as the teenage boy trapped in his wife's body but as the adult woman I was slowly becoming and most importantly his beloved wife. Even if I was his wife, we were only pretending to be close when the kids were around. Alone we were keeping a distance between us. That was until the one talk when we both decided to give our marriage a try and begin to open up a bit. From friendly hugs, to quick kisses on the cheek we finally reached the point where we started making love to each other. The first time I had with Mike made me realize how great my life turned out to be and that I actually love my husband.

Since then we are not pretending anymore. He is really my husband and I am his loving wife. Mike once told me that even if they were married for sixteen years he feels happier since I have become his wife. I won't deny that my life also feels better than when I was a teenager. I have a great husband, two wonderful children and a well paying job. Given all the good things happening now my manhood seems like a small price to pay.

As I put my hands around Mike's shoulders he pulled me closer for a long kiss. I never thought it will make me feel so good to kiss a man but that man is now my husband and I feel happy to be his wife. At this moment I couldn't care less about my previous life as I'm looking forward into this one.
