Best-selling thriller author Benjamin Dabrowski never intended living his protagonist's dangerous life. Yet after meeting Ryan Yeager, Dabrowski is forced to call on every skill he ever researched or wrote... just to stay alive. Yeager, a young blogger with a criminal past, has embroiled the two in a perilous race against death.

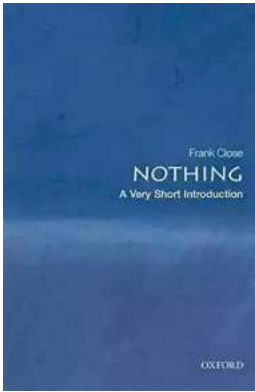

Two scientists have gained the massive resources to prove their theory; a sub-atomic particle field can be created in another dimension. And the field can strip mass.

But it has a serious flaw – if begun it can swallow an entire planet.

Only Dabrowski and Yeager, the most anti of heroes, can halt the inevitable disaster. The problem is, they have no idea where the scientists are. They only have a name; a spectral organization that is bankrolling the experiment. And every time the two follow another clue, someone tries to kill them.

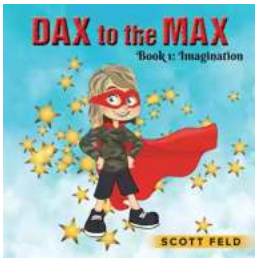

Their hunches must be right, because death keeps nipping at their heels.

The countdown has begun. It's a race to see if Dabrowski, Yeager and Earth will survive.
